IV. (c).The prohibition of the employment of public funds in weeding out or removing lantana under the present conditions.

(d).Bringing into force the Elementary Education Regulation extensively in the Malnad.

Resolution:

Recorded with the observation that the suggestions made in (a) and (b) will be carried cut as far as possible.

(c). With regard to the employment of public funds for clearing lanatana or rank vegetation, it was resolved that this Committee are of opinion that the ryots themselves should be induced to undertake the work without spending any Government money except perhaps in very special cases. In fact, the two Committees have been of this opinion from the very beginning. The Committee are further of opinion that some sort of legislation as in vogue in Coorg should be passed in respect of the eradication of lantana and other rank vegetation in the Malnad.

(d). As regards Elementary Education Regulation, though they are of opinion that increase of Schools and the progress in education are very essential for the development of the Malnad, the Committee consider it too early to introduce the Elementary Education Regulation under the present conditions of the

the Malnad and resolve that the matter be taken up by the Education Department and the number of Schools -- increased and education developed in the Malnad as funds and other facilities would permit.
